

Maggie's Special Wish

MAKE-A-WISH[®]

I wish to go...
to Disney World

Dear Dr. Frank and staff,

Your generosity has given children with life-threatening illnesses the opportunity to be swept away by what one magical experience will hold for them and the memories that they will always cherish.

"As our trip was coming to an end, my husband and I just wanted to hold on to these moments for as long as possible...the laughing, the hugs, the 'I love you' are all memories that we can only thank all those who support your organization for making this possible. There are no words to express the feeling you gave our daughter during her week of fairytale dreams... it was incredible. You gave us a gift of a lifetime and we thank everyone who supports your foundation to make a child's dream come true and provide memories for families that will last forever. We would like to thank you for the memories that will never be taken away from us!" -Maggie's Mom

Thank you for all your effort and support! Your generosity has provided a break from their world of pain, depression and limitations and given them the opportunity to have hope, strength and joy through *the power of a wish!*

Thanks again,

The Make-A-Wish Foundation
